

# **RIBHT MINI-WORKSHOP SERIES**

## **THE SUBSTANCE USE CRISIS IN WEST VIRGINIA: OPIOIDS, METHANMPHETAMINE, AND MEDICATION ASSISTED TREATMENT (MAT)**

The workshop will provide an overview of illicit substances commonly involved in drug overdoses in West Virginia, especially opioids and methamphetamine, as well as those medications associated with evidence-based solutions, including naloxone (for opioid overdose), and buprenorphine (for opioid-use disorder). Examples of specific cases involving these substances will be presented and discussion is encouraged.

Presented by:

Mark Garofoli, PharmD, MBA, BCGP, CPE
