Directions: This form is used for the Final Evaluation upon completion of SW491 field requirements (it may also be used as a mid-term evaluation tool as well). It is required that both student and field instructor complete the form separately, and both must be submitted to receive a final grade. The form completed by the field instructor will be relied on most heavily when determining the final grade. However, in cases of extreme discrepancy between responses, the student form may also be considered. Note: If mid-term evaluation completed, please use your mid-term evaluation to assist with measuring your progress at final evaluation. Final Grades will not be posted until both fully-signed, final evaluation forms are received by the Faculty Field Liaison. Failure to do so by the deadline assigned could delay your forward progress, and/or graduation.

This evaluation is designed to measure the competencies and practice behaviors adopted by the School of Social Work. Please use the following rating scale (also listed at the top of each page) to evaluate the quality of the student's performance in relation to the specific criteria. Remember to refer back to the learning contract for the individualized tasks designed to define the competencies and practice behaviors in your particular placement setting. While the midterm evaluation offered a N/O (Not Observable) category, this does not appear on this final evaluation. Students are expected to have been provided learning activities for all practice behaviors, as specified in the learning contract.
